

# WHAT TO EXPECT: LASER HAIR REMOVAL

A laser procedure designed to reduce or remove unwanted hair.

KEY BENEFITS: reduce or remove unwanted hair, reduce ingrown hairs

## BEFORE YOUR TREATMENT:

- Shave 24 hours before treatment.
- If using - apply topical numbing 30-60 min before treatment.

## DURING THE PROCEDURE:

- We'll take before photos and your skin will be cleansed.
- Goggles or eye shields will be applied to protect your eyes.
- The pulses feel like a quick pinch with heat; a cold air blower will be used for your comfort.

## POST PROCEDURE:

- There may be a sunburn-like redness and warmth to the treated areas that can last for 12-24 hours.
- Please report any unusual changes (like blistering) as you notice them.
